

Laguna Harbor

THE PORT YOU CALL HOME

*The place of your departure says
much about your arrival.*

Laguna Harbor feeds your passion for the sea by seamlessly merging the pleasures you enjoy on the water with those you expect at home.

In this carefully planned waterfront community you'll discover numerous home site options incorporating a self-contained, new urbanism philosophy. Build your own custom home or allow us to create an extraordinary residence for you. All of our properties feature an area for private boat docking facilities.

Slip into somewhere more comfortable.

With its deep canals and the largest private slips available on the Texas Gulf Coast, Laguna Harbor can accommodate virtually any pleasure craft. Its solid concrete bulkheads and streets keep the neighborhood's strength and integrity. You'll also enjoy state-of-the-art underground utilities, sanitary services, cable and broadband Internet. Plus all of our home sites incorporate strict architectural and design guidelines that help preserve your

property's aesthetic and financial value for many years to come. And Laguna Harbor is flood insurable under the Federal Emergency Management Association (FEMA).

Comfortably stretched across 80 acres on Bolivar Peninsula, Laguna Harbor is an easy drive from Houston and short ferry ride from Galveston Island. And with its convenience to both Galveston Bay and The Gulf of Mexico, our haven is a near perfect harbor for ships and sailors alike.

Come slip into somewhere more comfortable.
